Dear Sir/Madam,

Hope this letter finds you well. I would like to take this opportunity to introduce myself as a student in the Computer Science field. I am graduating in May 2023 from Seneca College, pursuing an Advance Diploma in Computer Programming and analysis. I am looking for a co-op position for Summer 2022 with an esteemed organization that would help me learn by use my abilities in a working environment.

My curriculum comprised of courses like Object Oriented Programming, Database System Design, Advance C++ concepts, Web Application Design and Development, Software Design and Analysis, Programming Methodology, and design of User Interface. The curriculum has assisted me to gain profound knowledge in the field of Computer Programming. These are the fields of my interest as well.

Adapting to work with people from different background, following instructions and communicating my insights and prioritizing have been the striking feature in my experience at college. In addition to the above, I strongly believe in learning and sharing my knowledge with colleagues. What I truly look up to from my experience from my co-op term and learning from a mentor. I truly believe that during my co-op term it is very crucial that I glance in the Computer Science and IT industry. I am keen on learning and adapting to new technologies to sharpen my skills at troubleshooting and solving problems.

I am confident that my background and knowledge in the Computer Science area along with my strong technical skills and work ethics will prove an important and immediate value to your organization.

I have enclosed my resume and would appreciate an opportunity to talk with you. Should you have any further concerns or questions, please feel free to contact me. I look forward to hearing from you soon.

Cordially,  
Smit Gabani
